## Created4Life

... a fresh approach  
to a sensitive issue

**Created4Life aims to...**  
Increase public awareness of the humanity and value of the pre-born baby,  
encourage women (and men) to choose to keep their babies  
and help those badly affected by a past abortion.

**What we do and how...**  
We set up a small table in town centres to display...  
Life-sized baby models, 7 to 20 weeks from conception  
Free Created4Life leaflets  
Free 10 week baby models and Precious Feet badges  
Beautiful images of developing pre-born babies  
We visit the same towns on a regular basis (every week  
if possible) and our friendly approach leads to numerous  
discussions, contacts and saved lives.

**Please note...**  
This is NOT a banner-waving protest  
We do NOT display graphic abortion pictures  
This is a *humanitarian* issue - Created4Life is not religious  
We don't aim to enter the political arena  
Our motive is compassion and our attitude non-judgemental  
Created4Life displays: simple, effective and easily replicated.

**Our vision...**  
We are convinced that the presence of regular Created4Life  
displays in towns across the country will dramatically reduce  
the abortion rate. Our vision is to establish these displays  
throughout Britain and worldwide.

**Be part of the vision...**  
Created4Life is a relatively new organisation hoping to expand its already successful operation and influence.  
We would like you to get involved too. You can do that by giving your time and abilities and/or you can support those of us actively working by donating.

We need volunteers right now to run Created4Life Street Displays in town centres in different regions. We can provide training, equipment and on-going support.

We also need people with other skills and experience such as web site design, marketing/promotion, fundraisers, knowledge of Charity regulations, follow-up, etc.

If you would like to help this vital and growing work then please complete the form below. Thank you.
